## **Abstract**

## Introduction

frightened of the development of total chaos during the delivery  
ing hospital (p. 268

## **Results**

### *Descriptive statistics*

*Pain intensity:*

*Subjective controllability:*

*Vividness:*

*Emotions:*

*Differences between pain intensity, subjective controllability and intensity of felt emotions reported after delivery and six months later*

*F*

*p*

*Relationship between subjective controllability, pain intensity, and emotions just after delivery and six months later*

women's evaluation
